

ALCOVE HINGE SHOWER SERIES

INLINE - 2 PANELS

INLINE - 3 PANELS

Important:

Before you install your project, please read this installation guide carefully, consider the gap between each part, calculate the exact length before cutting.

The corners and edges of toughened glass are its weakest points, so ensure they are well-protected during installation.

Always use rubber spacers to separate stainless steel hardware from the glass to avoid damage.

After completing the installation, it is essential to clean both the glass and the hardware. Proper cleaning of the glass helps maintain its protective coating, and cleaning the hardware removes any metal debris from the installation process, preventing potential rust.

Additionally, regular cleaning afterward is recommended to ensure long-term durability and maintain optimal performance.

LEGEND

Dimension A	The overall dimension including gaps between wall and all glass panels (±1mm to all gaps recommended).
Dimension B	The overall depth including gaps between wall and return panel (±1mm to all gaps recommended).
FP	Flat Panel
DP	Door Panel
